

Feline Approval

When I'm knitting, my cats sometimes get involved -- you know, playing with the yarn and the needles, although they are pretty well-behaved most of the time, but seriously, I get a lot of cat curiosity around here:

The best is when I get feline approval, such as here:

Revknits

Faith and life seen through the stitches we make.

and when it is something specifically for the kitty, the love is very evident!

It is a good feeling!
