

Another Kettle (or two) of Dye

I enjoyed getting out the food dyes for a couple of dyeing experiments with the free wool. I'm pretty happy with both of the colors this time:

I used orange, brown, red and yellow in the green skeins, and yellow and blue along with red in the pink ones.

Revknits

Faith and life seen through the stitches we make.

<http://revknits.com>

All in all a happy experiment, with nice depth of color in both colorways.
