

## **New Pattern! Beads and Lace Fingerless Mittens**

I am teaching a new workshop (aka mini-retreat) at Bluebird Yarn and Fibercraft tomorrow on knitting with beads and lace - a truly luxury kind of knitting.

As part of the class, I am introducing a new pattern for the class, a fingerless mittens pattern that uses - get this - only about 120-150 yards max of fingering weight yarn, about 300 Size 6 seed beads. It is knit flat, then seamed from each end, leaving an opening for your thumb. This would be a great gift knit!

[buy now](#)

And to celebrate, I am offering the pattern for free until the end of the month on Ravelry. Click on buy now button and you'll be taken to check-out. No need for a code, the pattern will be free!
